

Guidelines for a safer space

- We are committed to follow the guidelines for a safer space. The purpose is to make the event supportive, inclusive, and safer for all. We commit to the guidelines together with the museum staff and the participants of the event.
- Any inappropriate behavior will be addressed, and we offer support in a possible conflict situation. You will notice the museum staff and event organizer by nametag. There will also be a member of the ballroom scene present who will offer help, if needed.
- We will not tolerate any discrimination. Racism, age discrimination, heterosexism, transphobia, ableism, commenting on people's bodies or appearances or any other repressive behavior is not part of the event.
- Respect other people's right to self-identification. Don't make assumptions on one's sex, gender, background, or abilities.
- Give space, both physical and mental, and don't touch anyone without consent.
